2. Mr. Eaton from the Department of Commerce called to request our assistance in the handling of a job applicant who had been referred to Commerce by Congressman Ken Hechler (D., W. Va.). Mr. Eaton explained that in view of their requirements to appoint from the Civil Service register, etc., he was certain Commerce could not help this individual. In addition, his background in journalism, radio and television work might be of interest to us. It was agreed that Mr. Eaton would suggest to Hechler's office that they contact [redacted] who would be happy to arrange an interview for this individual.

3. Chatted with Mr. Max Lehrer, Staff of Senate Aeronautical and Space Sciences Committee, who commented that Messrs. Wiesel and Vance were very satisfied with the briefing they received from our people yesterday (copies of the Director's Joint Economic Committee speech and his Yale speech of February 1958, along with General Cabell's American Legion speech were forwarded to Lehrer for his information and that of Mr. Wiesel.).
